Draper Heads

Our full line of draper heads allows operators to configure their drapers to their individual needs. This product range offers widths from 30' to 45'.

TruFlex Razor

Three section hinged frame with matched three section reel and fully flexible cutterbar. Now with easy open side panels.

Flex

One section rigid frame with one section reel and fully flexible cutterbar. Now with easy open side panels.

Quick Facts

- Active gauge wheel support
- Central hydraulic knife drive with overload protection
- LED Illumination kit
- Hydraulically driven belt drive
- Double knife
- Automatic header height sensing for soy bean harvest
- Hydraulic block single point connection
- Additional hydraulic block for Lexion combines necessary (surcharge +\$3,000)
- Additional adaption for John Deere X9 combines necessary (surcharge +\$4,990)

Options

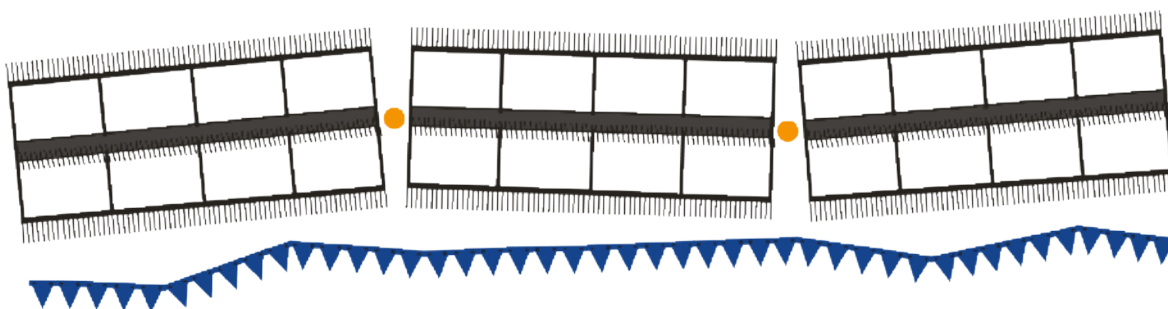

- Upgraded Integrated Air System (IAS) for increased yield potential
- High stubble kit for harvesting small grains
- Cutterbar option by recommendation for soybeans - 7 TPI or 11 TPI knives
- Cutterbar option by recommendation for small grain and rice - 11 TPI knives
- F 30 with hydraulic tilt adjustment (surcharge +\$8,900)
- IDEAL AutoDock (surcharge +\$6,544)
