# MiloStar

Superior in harvesting grain sorghum

The positive drive cutting system cuts high and clean to keep you moving and maintaining higher ground speeds. Kernel-capture row dividers keep the crop in the trough and delivers it to the combine.

## Quick Facts

- Hardened and carbide coated direct drive cutting discs
- The left and right discs run with different speeds for optimal cutting
- Bonnets with grain catch channels
- Maintain maximum yield retention
- Additional hydraulic block for Lexion combines necessary (surcharge +\$3,000)
- Additional adaption for John Deere X9 combines necessary (surcharge +\$4,990)

## Options

- ICF Sweeper
- IDEAL AutoDock (surcharge +\$4,792 for single drive, +\$8,430 for double drive)

## Rigid Models
