**Solid Design...Proven Performance**

# CHISEL FLEX HARROW

## Mandako's Chisel Flex

Not all fields are created equal. Mandako's Chisel Flex™ has been designed to work in various ground conditions. Multiple flex points allow the machine to follow the contour of the ground with unmatched precision.

## Features

Standard width of 40'

Frame Size: 4 x 4 x ¼ & 3/8"

3-Row HD Tine Harrow

## Benefits

Keeping your cultivator parallel to the ground is the best way to maximize performance. Mandako's Chisel Flex™ machines come with a hydraulic floating hitch, heavy frame tubing and 6 flex points to help you get your work done.

650lb Trip Specs

Hub Size: 6-Bolt (H618)

12.5L Floatation Tire

Super Flex Frame

Minimum Maintenance Grease Points

Floating Hitch

Pintle <Cat 3> Hitch

## BUILT TO LAST

Today's farmers expect longevity and durability from the equipment that they own. Mandako's Chisel Flex frames are built to last using 1/4" wall tubing in most areas and upgrading to 3/8" in strategic locations.

The unit has complete flexibility in all sections so there are no torsional stresses in the frame and easier pulling as the depth is more consistent. Plenty of mud room and trash clearance around the wheels and walking beams.

## Specifications

# of Sections	3
# of Rows	4
Spacing	12"
Working Width	40'
Transport Width	19'
Transport Height	16'-8"
Weight	15,000 lbs
Tires	12.5L
HP Requirements	280 - 400
Hydraulic Ports	2
