

Each series has an exploded view for identification purposes. The drawing illustrates the components in the same sequence as an implement input driveline transmitting power from tractor to implement. Each component of the exploded view is identified by an eight-digit stock number to insure correct identification of each component.

Example: For metric components the 102 prefix denotes a Quick Disconnect Tractor Yoke on the exploded view.

When ordering any component in the exploded view (for any series), be sure the stock number begins with the appropriate three-digit prefix.

The digit immediately following the dash (-) will be a 6, 7 or 8.

A 6 indicates the item is interchangeable with Bondioli & Pavesi ONLY.

A 7 indicates the item is interchangeable with Walterscheid ONLY.

An 8 indicates the item is interchangeable with BOTH Bondioli & Pavesi AND Walterscheid.

This interchangeability designation is used for all components EXCEPT roll pins, guards and guard bearings.

The following chart lists the approximate size replacement for Metric Driveline. These are not an exact interchange, and should be used as a general replacement guide only.

**CROSS & BEARING KIT CROSS REFERENCE CHART FOR METRIC COMPONENTS**

Cross & Bearing R-Kit Stock #	Cross & Bearing E-KIT Stock No.	Interchanges with Bondioli & Pavesi Series	Interchanges with Walterscheid Series
