

# Elston Gopher Getter vs. Verminator

## Elston GA-800

- **Quick hitch compatible for Category 2, 3, and 3N**
- **Point is able to be replaced**
- Spring loaded, molded resin bait box-no rust
- Simple and easy bait metering-no washers needed
- **Draw bar attachment with tire scraper is standard equipment**
- **One year warranty**
- Over 50 years of building quality gopher getters-the first and original gopher getter
- **845 lbs. shipping weight-heavy duty construction**
- **Economically priced-best return on investment of any machine on the market**

## Verminator

- Standard Category I and II 3 point hitch only-no quick hitch
- Not able to replace just the point
- Metal bait box-possibility of rust
- Shims and washers needed for bait metering
- Draw bar attachment with tire scraper is optional equipment-more \$\$
- One year warranty but warranty is void once shear is used (pg. 5 of operations manual)
- 680 lbs. shipping weight
- One of the most expensive machines on the market (\$4600 MSRP)
