SHAVER
Making hard work easy

Universal Transport Driver

- Post can be loaded onto the Post holder compartment.

- Ideal for farmers, fencing contractors, ranchers, rental stores, and highway maintance.

Construction and Operation:

Driving posts has never been easier with Shaver's lineup of Universal Transport Post Drivers. Available in two models, the UTD's self-contained power lets you drive steel or wooden posts. Driver mounted on passenger side of trailer (with the flow of traffic) more suitable for meeting DOT standards. Also, available channel extension to drive 12' fence posts. Standard 13 HP Honda engine with electric start. Tongue adjusts up to 24". The Driver extends 12" past the trailer wheel. Modular design allows for quick changes. Two standard stabilizer legs offer flexibility to drive post on uneven terrain. Post hold compartment capable of holding (15) 5" posts which is ½ of a standard bundle. Wheels come standard with 8 ply tires. UTD consists of one hydraulic post driver and one transport trailer.

	UTD-G3-10	UTD-G3-12
Impact Force	71,500 lbs.	100,000 lbs
Post Diameter Max.	8 ¾ inches	10-7/8 inches
