

Predator Extractor

- Extract posts, trees and saplings without leaving stumps behind
- Pulls out old fencing
- Skid Loader “Fast-Tach” system
- Hardened steel teeth contract and expand to 11 ½ inches
- Tapered ends for easier tree removal
- Run using a Hi or Low flow machine
- Replaceable jaws

Construction and Operation:

The Predator Extractor comes with ½” Quick Coupler set. A universal skid steer mounting bracket, and its 30” jaws sport hardened steel teeth and tapered ends for digging.
