

V-BLADE

**MAX OPERATING WEIGHT: 10,000 lbs.
30 - 80 HORSEPOWER**

Front Shoe

Front Shoe guides blade over obstacles, avoiding damage to equipment and property.

Sliding Hinge

Sliding Hinge allows blade to follow contour of surface.

- Replaceable 5/8" AR400 cutting edge
- QTach or direct fit to accept most makes of loaders
- 24" high mouldboard
- Sliding hinge allows blade to follow contour of surface
- Optional 6" side flares available
- Includes abrasion and wear-resistant AR400 nose and skid shoes

SIXWAY

HLA SNOW

Clean your sidewalks easily and effectively using the Six-Way blade from HLA Snow. Both sides of the Six-Way blade can be moved independently to form an angle blade, scoop, or V-Blade to ensure you have the right blade for every condition.

The Six-Way comes standard with spring trip cutting edges, ensuring the cutting edge springs back when the blade strikes an obstacle reducing damage to both the blade and equipment. Each model also comes standard with individually replaceable and reversible steel cutting edges, allowing you to get twice the life before needing to replace them when required. Rubber cutting edges are available as an option allowing your Six-Way to hug the contour of your lot for an even cleaner finish.

SB3600V

- Ideal sidewalk blade for compact tractors & skidsteers
- Replaceable, Reversible steel cutting edge
- Replaceable, Reversible rubber cutting edge (OPTIONAL)
- Spring trip cutting edge
- 35 Degree angle with cross over relief valve protection
- 30" High mouldboard with lateral float
- 54" to 84" Widths (6" increments)
- AR400 cutting edge

MAX OPERATING WEIGHT: 10,000 lbs.
30 - 80 HORSEPOWER

Scoop

SB4600V

- Ideal for small roadways & driveways
- Replaceable, Reversible steel cutting edge
- Replaceable, Reversible rubber cutting edge (OPTIONAL)
- Spring trip cutting edge
- 35 Degree angle with cross over relief valve protection
- 34" High mouldboard with lateral float
- 96" to 144" Widths
- Standard Carbon cutting edge, optional Boron and Carbide cutting edge

MAX OPERATING WEIGHT: 25,000 lbs.
60 - 125 HORSEPOWER

SB5203W1016

Patent features

- Hydraulic rotary actuators on wing pivots— infinite wing adjustment from 0° to 180°
- Front tire protector

- Nitrate rods on angle cylinders
- Double electric selector valve with electro-hydraulic harness kit. 12V or 24V coils available.
- Spring-trip on cutting edge
- 42" high mouldboard
- Lateral float
- Two 3 x 16 angle cylinders
- 35° angle either direction
- Cast highway skid shoes (non Edge Flex only)
- Cross-over relief valve protection
- 2 Year Commercial Warranty**
- Reversible cutting edge (non Edge Flex only)
- Heavy duty construction on mouldboard, framework and tripping edge
- Maximum clearing width 6' wider than main mouldboard width
- Wings 36" deep / wide

Snow Removal - 5205 Series

Prices Effective as of 3-24

SB5205W1020

- Includes standard features of the 5203W
- Maximum clearing width 10' wider than main mouldboard width
- Wings 60" deep / wide
- Great for large sites where greater clearing width is required while being able to narrow down for smaller areas
- 42" high mouldboard
- Comes with removable top sections on wings to allow for clearance under 5th wheel pins on trailers
- Double electric selector valve with electro-hydraulic harness kit. 12V or 24V coils available.
- **2 Year Commercial Warranty**

Patent features

- Hydraulic rotary actuators on wing pivots—infinite wing adjustment from 0° to 180°
- Front tire protector

Snow Removal - Buckets

SBSN84

- 3/16" material, 1/4" end plates
- 3/4 X 4 bevelled cutting edge
- Reinforced top lip
- Screened back for better visibility
- 39" deep, 31" high
- Reinforced round back and end plates for strength, easy filling & clean out
- Flat top acts as level indicator
- Tapered end plates are self-cleaning and reduces material build-up.
- Drilled for standard bolt on cutting edge

Add 2" to Inside Width column to calculate Outside Width of bucket

Snow Removal - Options

High Tensile Long Wear Skid Shoes

- Available only for non Edge Flex 4000, 4203W, 4205W, 4500, 5000, 5203W, 5205W, 5500, 5505, 6000, 6205W & 6500 series blades
- Long wearing properties for extended life span

LWHSKP

Snow Blade Markers

- 27" High
- Can be mounted on most blades
- (Will not adapt to manual flip up end plates)

SBM27

Floating Blade Hinge

- This option adds a mechanical float to the blade. This allows the blade to better follow the surface contour. The float is designed to be simply locked out when not needed by rolling the blade forward.

Floating Blade Hinge

Carbide Tipped Cutting Edges

- Carbide tipped edges are designed for heavy commercial use, this non reversible cutting edge is suited for heavy duty clearing on concrete or asphalt.

Carbide Tipped Cutting Edges

Curb Runner

- Protects cutting edge from potential wear from rubbing against curbs etc.

Curb Runner for Angle Blade

AR400 Skid Shoe

- Optional for non Edge Flex 4500, 5500, 5505 & 6500 series pushers
- Large pad style skid shoe for better floatation on soft surfaces

SB1075

Curb Runner for Snow Wing

- Protects wing cutting edge from potential wear from rubbing against curbs etc.

Curb Runner for Snow Wing

The new Foot Switch is a direct replacement for the 3-way toggle switch traditionally used to control the diverter valve on SnowWing plows.

- Available as a field install kit to retrofit from a 3-way toggle switch, or as an upgrade option with a new plow order

Follow QR Code to see the "Optional Footswitch Wing Control" video.
