

# MANDAKO

**Chisel Flex**

**Solid Design...Proven Performance**

## Mandako's Chisel Flex

## Features

## Benefits

Not all fields are created equal. Mandako's Chisel Flex™ has been designed to work in various ground conditions. Multiple flex points allow the machine to follow the contour of the ground with unmatched precision.

Keeping your cultivator parallel to the ground is the best way to maximize performance. Mandako's Chisel Flex™ machines come with a hydraulic floating hitch, heavy frame tubing and 6 flex points to help you get your work done.

Standard width of 40'

Frame Size: 4 x 4 x ¼ & 3/8"

3-Row HD Tine Harrow

650lb Trip Specs

Hub Size: 6-Bolt (H618)

Super Flex Frame

12.5L Floatation Tire

Minimum Maintenance Grease Points

Floating Hitch

Pintle <Cat 3> Hitch

## BUILT TO LAST

Today's farmers expect longevity and durability from the equipment that they own. Mandako's Chisel Flex frames are built to last using 1/4" wall tubing in most areas and upgrading to 3/8" in strategic locations.

The unit has complete flexibility in all sections so there are no torsional stresses in the frame and easier pulling as the depth is more consistent. Plenty of mud room and trash clearance around the wheels and walking beams.

## Specifications

# of Sections	3
# of Rows	4
Spacing	12"
Working Width	40'
Transport Width	19'
Transport Height	16'-8"
Weight	15,000 lbs
Tires	12.5L
HP Requirements	280 - 400
Hydraulic Ports	2

Prices in effect until April 30, 2025
