CONTACT INFORMATION

Customer Service

Our knowledgeable staff is available to assist you with product information and sales orders from 8:00 a.m. to 4:30 p.m. (CST) Monday through Friday. If you need assistance before or after our normal business hours you may leave a message and a SpeeCo representative will respond as quickly as possible.

Phone: 303-279-5544 **Web:** www.speeco.com
Toll Free: 800-525-8322 **Email:** customersupport@speeco.com
Fax: 303-278-3432

Ordering Information

Many of our more popular small parts are available in colorful SpeeCo poly bags and plastic clamshells which are imprinted with a bar code and descriptive information. See the columns marked "**BAG NO.**" and "**CLAM. NO.**" for the items available. Package quantities are shown in parentheses. All orders are shipped prepaid and add unless otherwise requested. Minimum quantities may apply.

NOTE: "**WEIGHT**" = individual part weight. For the bag or clamshell package weight, simply multiply by the package quantity.

Warranties

The Company warrants that the equipment manufactured by SpeeCo and delivered hereunder will be free of defects in material and workmanship for a period as outlined below. Any SpeeCo product or part believed to be defective may be returned prepaid after approval is given by our customer service department. Following inspection, if the product is deemed to be defective in material or workmanship, repair or replacement will be made at no charge and returned prepaid. Below is an example of product warranties. For the most complete and up-to-date information, please contact customer service.

Tech Support, Warranty Service, and Parts

SpeeCo utilizes an extensive network of independent service locations throughout the United States. Log splitters requiring warranty or post warranty service should be taken to one of these authorized service locations for experienced analysis and repair. To find the authorized service locations nearest you, please visit our web site at www.speeco.com and click on the service center area for specifics on locating one in your area.

Technical Support for all SpeeCo products is available via the telephone from 8:00 a.m. to 4:30 p.m. (CST) Monday through Friday. You may reach our Technical Support Specialists at 800-525-8322 and follow the prompt for Technical Support. These trained professionals can assist with operational and technical questions, as well as assistance identifying replacement parts for SpeeCo products.

INTRODUCTION

About SpeeCo

SpeeCo, a division of Blount International, is headquartered in Oregon, Illinois, and is a global leader in tractor 3-point linkage parts and farm accessories. In addition, we are a leading manufacturer of tractor-mounted quick hitches, post hole diggers and hydraulic log splitters.

Founded in 1957, our primary objective has been to provide our customers with a complete and profitable selection of quality merchandise at competitive prices. We take great pride in being a long-term supplier to many major tractor manufacturers, implement manufacturers and national farm equipment retailers.

Our 350,000 square foot facility in Kansas City, Missouri, has a world class warehouse management system and is SAP compatible. It was awarded a silver LEED (Leadership in Energy and Environmental Design) certification. It offers 59 dock doors for maximum flow-through for shipping and receiving.

We continue to build upon a large knowledge base of this industry created by our many years of engineering and manufacturing expertise. Our sales and customer service personnel, supported by a staff of professional engineers, welcome the opportunity to assist you in your special needs.

350,000 square foot facility in Kansas City, Missouri

The Three-Point Hitch System

Many of the products described in this catalog are components of the typical tractor three-point hitch system that is standard on almost all farm tractors today. See Illustration A below. The basic function of the system is the attachment and adjustment of agricultural implements.

The three primary parts of the system are the top link and two lower lift arms as shown in Illustration A. Top link pins and draw pins (lift arm pins) are used to fasten the implement at these three points. Adjustment of one or all of these components allows the tractor operator to raise, lower or tilt an implement.

The three-point linkage parts described in this catalog are built to standard specifications set by the American Society of Argicultural and Biological Engineers (ASABE).

CATEGORY 0, 1, 2 and 3 are used to classify tractors by PTO horsepower. The table below gives the dimensions and the horsepower ratings that are associated with these four categories.

MAXIMUM PTO HORSEPOWER	TOP LINK PIN DIAMETER	PULL OR DRAW PIN DIAMETER	STANDARD LIFT ARM SPACING
Cat. 0- up to 48	5/8"	5/8"	20"
Cat. 1- up to 92	3/4"	7/8"	26"
Cat. 2- 80 to 185	1"	1-1/8"	32"
Cat. 3- 150 to 350	1-1/4"	1-7/16"	38"

TOP LINK CONNECTION

Top link pins are always unthreaded and are held in place by either a lynch pin, or in some cases, a large "R" clip pin. See below. Top links and top link pins vary in length, but their respective ball socket holes and pin diameters are standardized by horsepower category.

LIFT ARM CONNECTION

Most lift arm pins are threaded on the end that bolts to the implement bracket. The unthreaded end with the cross hole accommodates the ball socket of the lift arm. The lift arm is secured on the pin with a lynch pin or large "R" clip pin. See below. Lift arms and lift arm pins vary in length, but their respective ball socket holes and pin diameters are standardized by horsepower category.

** Color of zinc-plated parts may vary

HARDWARE & ACCESSORIES

Forged straight, twisted, utility and farm clevises with heat treated pins. Total forging provides better grain structure alignment without built-in stress and more consistency in strength, quality and conformity. Clevises, midlinks and drawbar hook have black powder coated finish. Clevis pins are zinc plated*.

Gate Latches and Anchor

	SKU NUMBER	UPC ITEM NO. 0-87196-	DESCRIPTION	WEIGHT (lbs.)
	S16100500	16105 0	One-way lockable gate latch; designed to accept padlock; round tube gates 1-5/8" to 2" OD; painted red	3.2
	S16100200	16102 9	Gate anchor; holds livestock gate open in any position; helps prevent gate end from swinging and sagging; round tube gates 1-3/4" to 2" OD; painted red	4.0
	S16100300	16103 6	Two-way gate latch; round tube gates 1-5/8" to 2" OD; painted blue	5.0
	S16100700	16107 4	Two-way lockable gate latch; designed to accept padlock; round tube gates 1-1/4" to 1-1/2" OD; painted black	5.0
	S16100100	16101 2	Two-way lockable gate latch; designed to accept padlock; round tube gates 1-5/8" to 2" OD; painted blue	5.0

Gate Wheels

SKU NUMBER	UPC ITEM NO. 0-87196-	DESCRIPTION	WEIGHT (lbs.)
S16100600	16106 7	Gate wheel; allows gate to open and close with ease; prevents gate sag; round tube gates 1-5/8" to 2" OD; painted blue	4.1

S16117400	16174 6	Spring gate wheel; adjusts for gates with high ground clearance; prevents gate sag and drag; reduces stress on hinges, bolt hooks and post by supporting swing end of gate; allows gate to open and close easily in either direction; fits gates 1-5/8" to 2" OD tube; easy to install; hardware included; wheel size: 10" diameter	12
-----------	---------	---	----

S16117000	16170 8	Tall gate wheel; adjusts for gates with high ground clearance; prevents gate sag and drag; reduces stress on hinges, bolt hooks and posts by supporting swing end of gate; allows gate to open and close easily in either direction; fits gates with 1-5/8" to 2" OD tube; easy to install; hardware included; wheel size: 10" diameter	12
-----------	---------	---	----

Gate Hinges

SKU NUMBER	UPC ITEM NO. 0-87196-	DESCRIPTION	WEIGHT (lbs.)
S16100800	16108 1	Gate hinge; designed for round tube gates with 1-5/8" to 1-3/4" OD; 5/8" diameter x 6" long bolts; kit includes upper and lower hinges and mounting hardware	2.6

S16100900	16109 8	Gate hinge; designed for round tube gates with 2" OD; 3/4" diameter x 12" long bolts; kit includes upper and lower hinges and mounting hardware	5.9
-----------	---------	---	-----

Gate Closers

SKU NUMBER	UPC ITEM NO. 0-87196-	DESCRIPTION	WEIGHT (lbs.)
S16101800	16188 3	Adjustable gate closer; heavy duty cable will adjust to fit most posts; designed to accept a padlock; powder coated corrosion resistant finish	5.0

S16101900	16189 0	Gate closer; fits gate posts up to 5" diameter; accepts padlocks; powder coated corrosion resistant finish	5.0
-----------	---------	--	-----

Barbed Wire Carrier

SKU NUMBER	UPC ITEM NO. 0-87196-	DESCRIPTION	WEIGHT (lbs.)
S16110300	16198 2	Barbed wire carrier; efficient and safe way to carry barbed wire; easily unroll barbed wire by yourself; free spinning design; 1/2" pipe through handle creates a two-man carrier	0.5

Wire Gripper

SKU NUMBER	UPC ITEM NO. 0-87196-	DESCRIPTION	WEIGHT (lbs.)
S16111000	16110 4	Wire gripper; holds wire in place for fencing maintenance; works with barbed wire, smooth wire and small cable	0.9

Post Pounders

Easy to grip handles, heavy duty steel construction, powder coat finish.

SKU NUMBER	UPC ITEM NO. 0-87196-	DESCRIPTION	DIAMETER	WEIGHT (lbs.)
S16110100	722220	Standard duty post pounder; 23-1/4" long	2-3/4"	17
S16110200	16112 8	Spring post pounder; spring inside unit pushes it upwards after impact; reduces the effort involved in driving steel posts	2-9/10"	17
S16110900	16109 8	Standard duty post pounder; 29-1/2" long	2-3/25"	12
S16117200	16149 4	Heavy duty post pounder; drive steel posts into the ground quickly and efficiently; easy to grip handles; heavy duty steel construction	3"	30

Post Pullers

SKU NUMBER	UPC ITEM NO. 0-87196-	DESCRIPTION	WEIGHT (lbs.)
S16116000	16160 9	T-post puller; for removal of studded "T" posts; easy one man operation pulls the post straight out of the ground without bending or twisting so it can be reused	17
S16110400	16104 3	Metal T-post puller; innovative slot allows use of different gauges of chain; use with tractor bucket, chain, handyman jack or s-hook; simple and quick to use	2.29

Wire Stretchers

SKU NUMBER	UPC ITEM NO. 0-87196-	DESCRIPTION	WEIGHT (lbs.)
S16112500	16125 8	Rope wire stretcher; comes in a four color display box	5
S16111300	16113 5	Woven wire stretcher with hooks	14

SPROCKETS

High quality, precision made weld on sprockets for a variety of farm, ranch and industrial applications.

ROLLER CHAIN

Roller Chain & Roller Chain Breakers

Exceeds ANSI specified standards. Chains are pre-stretched to eliminate initial stretch. Solid rollers maximize the product life cycle. Welded bushings assure the quality. Metal fatigue is avoided by shot-peening the parts before assembly.

LOG SPLITTERS

SpeeCo has manufactured a wide variety of gas engine, electric and 3-point hitch mounted hydraulic log splitters since 1976 and is a global leader in log splitters. Many innovations in log splitter design and various safety features are the result of SpeeCo engineering and "voice of the customer" feedback. SpeeCo also provides a variety of log splitter accessories.

SpeeCo log splitters unique features include:

- Beam with engineered cylinder connection for increased strength
- Patented log cradle design
- Removable cutting wedge
- Reinforced stripper plates remove wood from wedge

Patented built-in log cradle makes splitting wood quicker, easier & safer

5 Ton Electric Log Splitter

S40100500

- Splits logs up to 20" long
- Automatic push plate return
- Separate pump and valve
- Easy to move with convenient handle and extra large wheels
- Built in log cradle
- No gas or oil required
- Easy one hand operation
- 110 volt
- Copper wound motor
- Hydraulic fluid included
- Integral suction filter to protect pump and valve
- Minimal maintenance required
- Rugged steel construction with a one year warranty

Optional log splitter stand available. See accessories section.

25 Ton Log Splitters

**25T Vertical / Horizontal Hydraulic Log Splitter
597473**

The SpeeCo® 25 Ton hydraulic log splitter features a 6.5 horsepower Kohler® engine and a reinforced beam engineered and manufactured with high strength U.S. steel right here in the U.S.A. With an interlocking foot plate design for superior strength, we've added a 5-year consumer warranty* so you can split any species of wood with confidence.

- 25 Tons of splitting power
- Kohler® SH265 6.5 HP engine, 196cc
- Beam manufactured in U.S.A. with high strength steel; high stress areas reinforced for extreme durability
- 13-second cycle time**
- Patented integrated log cradle handles up to 24.5" length logs
- 8" tall wedge; fixed striper plates
- Two-stage 13 GPM pump
- 4.5" x 24" stroke cylinder
- Auto-return valve
- Replaceable filter
- 6.5 gallon hydraulic capacity
- 4.8" x 8" road towable wheels rated 45 MPH
- Flip stand with tongue handle; safety chains; 2" ball coupler

Commercial Kinetic Log Splitter

**Commercial Kinetic Log Splitter
580899**

Combining state-of-the-art splitting technology with innovative design features, our commercial kinetic log splitter is ideal for commercial firewood producers, tree service companies, camp grounds, landscapers, or anyone who wants to split more wood faster.

Kinetic technology isn't new, but it's the wave of the future for fast, efficient log splitting. Twin 70 lb. flywheels spin at 325 rpm to create and store kinetic energy. It's released in a burst through the rack and pinion gear system, driving the ram forward to split wood in 2 or 3 seconds instead of 13 or more seconds like hydraulic splitters. This tremendous increase in splitting speed significantly increases productivity - even on tough, gnarled wood. Our innovative features were developed and tested with commercial firewood producers.

- 2-second cycle time is up to 7X faster* than hydraulic 20 to 40 ton log splitters
- Two-handed operation from either side
- Patent-pending handle design, with torsion springs - virtually no kick-back
- Ergonomic handle movement that reduces operator fatigue - no unnecessary motion
- Twin 70-lb flywheels
- Kohler® SH265 engine, 196cc
- High-strength steel, 32-inch wide table
- Welded, table mounted lift handles
- Retractable tongue
- Single piece, 6-inch hardened wedge
- Precision, heat treated steel alloy rack and pinion gear system made in the U.S.A.
- 2-inch ball coupler and safety chains for towing
- 2-year Residential warranty
- 6-month Commercial warranty

Tractor Mounted Post Hole Diggers

SpeeCo is a leading manufacturer of tractor-mounted, PTO driven post hole diggers. We have provided this farm and ranch implement to customers around the globe for over forty years. We have a full line of diggers, augers, and accessories to choose from.

Standard on all diggers:

- Safety shields on input and output shafts
- Heavy duty gear box
- Manual canister

Additional model-specific features included in product descriptions below.

Retail Displays

We can assist in the design of custom retail displays. We will recommend specific products that have proven to be fast-moving. In recent years we have developed plan-o-grams for single farm stores and national farm retail chains. We recognize that each customer has different needs and limitations and will tailor our recommendations based on these factors. Please feel free to contact our marketing department for suggestions and for samples of plan-o-grams that we have designed for other customers.

Other Methods

POLY BAGS AND CLAMSHELL PACKAGING

Many of our best-selling parts are available packaged in colorful poly bags or plastic clamshells. This simplifies retail display and inventory and promotes impulse sales. Both have UPC bar code labels and descriptive information. You can find the products available under the columns in the catalog marked "**BAG NO.**" and "**CLAM. NO.**".

UPC LABELED PARTS

Our retail customers receive UPC bar code labels on all of our three-point linkage parts. The label includes part number, description and bar code.

Custom Manufacturing

With over fifty years of manufacturing and design experience, supported by engineering and quality control staff, SpeeCo is in the unique position to offer custom manufacturing services.

We have the capability to produce variations of our standard linkage parts or items of your own design.

Blueprints

SpeeCo has partnered with most leading tractor and implement manufacturers to produce quality products to their specifications. Our capabilities have expanded beyond the agricultural sector to include industrial, mining and construction equipment.

Typical custom services include the production of forgings, castings, weldments, and high tolerance machining along with heat treating and custom finishes. We welcome the opportunity to take on the most challenging design projects.

We invite you to submit drawings and specifications of your components for quotation.

CAD/CAM Software Drawing

Actual Part

SpeeCo carries custom made pins in numerous diameters and lengths for all types of equipment. Pins are made from various steels and alloys that can be hardened and heat treated to provide multiple strengths for your specific requirements.

We have robotic, MIG and fusion welding capabilities that allow us to produce a broad range of custom measurements.

We manufacturer a wide range of custom bushings and bosses up to 10" in diameter for all types of agricultural and industrial equipment manufacturers.

Equipment includes multiple three ton drop hammers and 1600 ton screw presses to supply you near-net-shape forgings. After forging, products can be machined to size and can be heat treated in a numerically controlled atmosphere to provide concise measurements and the utmost strength desired.
