#### **MECHANICAL BRUSH CRUSHERS**

#### BC-3000

- · Small mechanical unit for TA-55 and 10 - 25 HP tractors
- · No added hydraulics or cylinders
- · Independent action utilizes cylinders on loader to open and close

- No more buckets & chains!
- Simple shape and open design allows clear view
- Precise control to move items like culverts or tubing without causing damage

Crush with power--Manhandle a pile of logs and easily move piles of brush

- 100 series loaders No added hydraulics or cylinders
- · Adjustable fit installs over end of loader arm

#### BC-5000

- · Large mechanical unit for loaders
- · No added hydraulics or cylinders
- Fits Snap-Attach™ quickchange attachment system
- Independent action utilizes cylinders on loader to open and close
- Optional tie-bar available

#### BRUSH CRUSH

#### BC-6000

- · Simple shape and open design allows clear view
- Hydraulic power teeth add power, control and versatility
- Fits Snap-Attach™ system
- · Optional tie-bar available

#### BC-7000

- · One-piece unit is 56" wide
- · Features hydraulic power teeth that are ideal for the heavy user
- Fits universal skid-steer adapter
- · Optional quick-attach finishing teeth (BC-700)

#### MONSTER BRUSH CRUSHER BC-8000

- · One-piece unit is 72" wide
- · Features hydraulic power teeth that are ideal for the heavy user
- · Lower teeth work in unison
- · Fits both loaders with Snap-Attach™ & skid-steer adapters
- Optional quick-attach finishing teeth (BC-800)

# More BRUSH CRUSHERS!

## Universal Skid Steer

- -FOR SKID STEER QUICK ATTACH
- -HEAVY DUTY CONSTRUCTION
- -ADUJSTABLE TO MANY LOADER BRANDS
- -SERRATED TEETH FOR EXTRA GRIP

# Westendorf Snap-Attach

- -FOR WESTENDORF SNAP-ATTACH
- -INDEPENDENT ACTION
- -FIRMLY SECURE UNEVEN LOADS
- -BOTH TOP AND BOTTOM TEETH MOVE

### Uni-Fit Brush Crusher

- -BRAND NEW DESIGN!
- -INDEPENDENT ACTION
- -FIRMLY SECURE UNEVEN LOADS
- -FITS A HUGE VARIETY OF LOADERS

## Double-action Brush Crusher

- -ORIGINAL BRUSH CRUSHER
- -INDEPENDENT ACTION
- GENERAL IMPLEMENT DISTRIBUTORS
- -FIRMLY SECURE UNEVEN LOADS
- -BOTH TOP AND BOTTOM TEETH MOVE

#### **BRUSH CRUSHERS - MATERIAL HANDLING**

#### HOW TO CHOOSE A BRUSH CRUSHER FOR YOUR WESTENDORF LOADER

Refer to the dot charts on the following pages to determine which models will work on your Westendorf loader. There are two types of units, a mechanical option and hydraulic option. Both styles may fit your loader; the best choice is determined by the tractor and types of tasks at hand.

**The mechanical** models DO NOT need to have access to a 3rd function, there are no cylinders on the mechanical brush crushers. They utilizes the bucket cylinders of the loader to open and close. This is a great option for older loaders and tractors that have limited hydraulic ports on the tractor. You can just snap-in ang get to work without changing the hydraulics.

**The hydraulic** models are ideal for the customer that already has a 3rd function set up on his loader/tractor or someone that plans to use the attachment weekly, such as a tree service. The hydraulic brush crushers retain the ability to tilt the load instead of using the tilt to open and close the units. These also offer quick-attach units for all series Westendorf loaders and skid-steers.

#### NEW BRUSH CRUSHER FIT FOR OTHER BRAND LOADERS

Refer to the fit list below to determine which Brush Crusher model fits your loader. You'll need to reference the model number of your NON-Westendorf loader, not the tractor model. If your loader is self-leveling, you need to inform us at the time of the order. We fit new models daily, so if you don't see your loader model listed, contact us. You can request a new fit by submitting dimensions of your loader. This is available from a customer service representative.

Some other brand loaders will require a conversion to Westendorf Snap-Attach $^{\text{TM}}$  system. These models are identified by C-15 reference

#### **BRUSH CRUSHERS - MECHANICAL**

#### MECHANICAL BRUSH CRUSHER™

The Brush Crusher™ with mechanical teeth is ideal for handling materials such as logs, trees, brush, pipe and more. It's like adding fingers to your loader. The hydraulic action of bucket cylinders open and close the teeth. Does not require hydraulic lines or plug-ins at rear of the tractor .

- No Added Hydraulics Required
- Crushes with Power
- Lifts with Power
- No Chains
- Lift more Payload
- Gentle and Precise
- Clear Sight Lines

#### **BRUSH CRUSHERS - HYDRAULIC**

**Precision Control** 

The Hydraulic Brush Crusher has Power-Teeth

cylinders inside the teeth allow precision control and tilt to access hard to reach items easily.

#### BRUSH CRUSHERS™ - WITH HYDRAULIC POWER-TEETH

The Brush Crusher™ with hydraulic Power-Teeth are ideal for the heavy user for handling all types of bulky and lopsided loads of lumber, pipe, fence posts, trees, brush, logs, firewood & more. Powerful cylinders are enclosed inside the teeth. Requires extra hydraulic lines and plug-ins at rear of the tractor.

#### **HYDRAULIC BRUSH CRUSHER**

Part Number: BC-6000 This model is for loaders with Snap-Attach™ System (pg 43). Optional Tie Bar Shown P/N: BCK-001 (20/40 Series) BCK-003 (70 Series)

#### **BRUSH CRUSHER** for Skid Steer

Part Number: BC-7000 BC-700 Teeth BC-7700 (BC and Teeth) 56" Wide Skid Steer Adapter Teeth Quick-Attach Hydraulically

independently of each other for a tight, secure grip on all types of unruly loads.

Interchangeable

The adapter on the BC-8200 lets you quick mount to a loader or Skid Steer with the conversion plate.

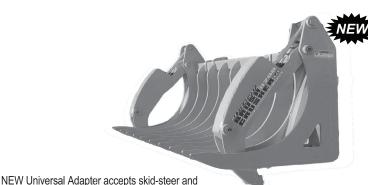

CUSTOM

#### **MONSTER** BRUSH CRUSHER™

Bigger, stronger & universal fit...

The ultimate tool for handling all types of materials. It's ideal for heavy use on larger loaders and skid loaders with cabs. It's 72" wide.

Westendorf Snap-Attach Couplers on 20, 40 & 70 Series Loaders.
